Flying Legends Since 1945

George J. Priester Aviation was founded by George Priester in 1945 as a flight training school. It was a simple proposition at first, to provide a platform to educate and demonstrate the practices of a progressing industry that would eventually integrate itself into the lives of on-the-go business and leisure travelers alike.

Today, nearly 80 years later, George J. Priester Aviation serves as the parent company for the most established legacy aviation brands, **Priester Aviation**, **Mayo Aviation**, and **Hill Private Aviation**. With nearly 200 years of combined experience, it stands as one of the world's most experienced global private aviation establishments, specializing in aircraft management and private travel solutions. Offering a family of legacy aviation service companies throughout the country, this newly branded parent corporation is anything but new to aviation.
